**MINERAL PROPERTY INTERESTS**

**Lara Property**

The Company entered into an Option and Royalty Agreement (“the Agreement”), together with Lara Exploration through Minas Dixon, for the sale of the Lara Property to Minsur S.A and a 1.5% NSR royalty. Under the terms of the Agreement the Company and Lara Exploration have granted Minsur S.A an exclusive option to acquire a 100% interest in the Lara Property by making staged cash payments of US\$5,759,000 based on the satisfaction of the following various milestones:

<b>Milestone/Date</b>	<b>Option Payments (US\$)</b>
Upon Registration of the Agreement before Public Notary received July 21, 2020)	59,000
One year from Registration of the Agreement	200,000
Approval of Environmental Study and Start of Work (“DIA-IA”)	200,000
One year from approval of the DIA-IA	300,000
Approval of Semi-Detailed Environmental Study (“EIA-SD”)	500,000
One year from approval of the EIA-SD	1,500,000
Upon transfer of Title	3,000,000
<b>Total (US\$)</b>	<b>5,759,000</b>

The Lara Property is made up of a porphyry center known as Lara. It has been delineated with a corridor of hydrothermal alteration extending over several kilometers. Preliminary metallurgical test work, completed in the late 1990’s, indicates that the enriched zone of the Lara Property is amenable to low-cost solvent extraction and electro-winning processing.

**North West Leinster Lithium Property**

On April 21, 2020, the Company entered into an amended Letter of Intent (the “LOI”) with LRH Resources Ltd (LRHR), an arm’s length private company. The LOI re-defines the option agreement as previously announced on October 28, 2018, in which the Company has the option to acquire up to 90% of the North West Leinster Lithium Property in the Republic of Ireland. The Company now has the right to exercise the following options:

- By spending €85,000 on exploration expenditures and up to €6,500 in license charges, fees and rents to keep the property in good standing by October 12<sup>th</sup>, 2022 an initial 17.5% interest can be acquired.
- The Company can exercise the second option by spending €500,000 on expenditures within two years following receipt by LRHR of the 1<sup>st</sup> Option Notice and paying LRHR €50,000 in either cash or a combination of cash and common shares of the Company, at the option of the Company, with at least €5,000 is payable in cash. Upon the above, a further 37.5% interest can be acquired.
- The Company can exercise the third option upon spending a further €1,000,000 on expenditures on the Project within two years following receipt by LRHR of the 2<sup>nd</sup> Option Notice and paying LRHR €200,00 in either cash or a combination of cash and commons shares of the Company , at the option of the Company, of which at least €20,000 is be payable in cash. Upon this, an additional 35% interest can be acquired by the Company.

Pursuant to the original agreement with LRHR the Company made a cash payment of €10,000 (Paid – CAD \$15,438) and incurred €106,654 (CAD - \$165,828) of exploration expenses. This completed the due diligence required to enter into the LOI above.

**Lithium King**

The Lithium King Property is located on the west side of the Great Salt Lake Basin in western Utah, adjacent to the community of Wendover, Utah. The land position consists of approximately 7,900 acres (3,200 hectares) of placer claims. The Property has the potential to host a lithium, and magnesium brine deposit in an existing mineral producing location in a mining-friendly state.

In connection with acquiring the Property, the Company has agreed to pay a finder's fee to Atherton Resources LLC. Subject to acceptance of the TSX Venture Exchange, the finder's fee shall include: (1) a 2% net smelter royalty over the Property, with a right to repurchase 1% of such royalty for the greater of US\$1 million or 10% of the value of such 1% royalty; (2) the issuance of 150,000 common shares of the Company upon delivery of a technical report prepared in accordance with National Instrument 43-101 in respect of the Property; and (3) the issuance of 380,000 common shares upon delivery of a positive feasibility study in respect of the Property. The finders' fee agreement is subject to TSXV approval.

**EXPLORATION OUTLOOK**

The Company is currently conducting exploration on two projects, namely the Northwest Leinster lithium project in the Republic of Ireland and the Lithium King project in the state of Utah. The principal activity at Northwest Leinster is preparation for the planned 6-hole drill test (900 m) on targets at the Aughavannagh Prospect. Previous work at this target has included geological mapping, prospecting, rock sampling, soil geochemistry on multiple soil horizons and ground magnetics. Rock samples have yielded analysis up to 8280 ppm Li (1.78% Li<sub>2</sub>O) in angular pegmatite boulders. The drill program will test targets defined by anomalous soil geochemistry and ground magnetics. Permitting for this program is ongoing and drilling is expected to begin in late April. Data collection and survey design is in progress on the Lithium King project. Data from historic oil wells is being located and digitized and preparation is under way for a ground gravity and magnetic survey to better delineate the basement features that control the targeted sedimentary basin. Shallow surface wells show highly anomalous Li concentrations in brines (2 to 1,200 ppm), but a drill hole with brine sampling of horizons isolated by packer systems is required to properly assess the deeper basin brines. Due diligence work is in progress on a nickel property located on privately held mineral rights in the Upper Peninsula of the state of Michigan. Work to date has included completion of stratigraphic holes to test lithology below a cover sequence of Paleozoic sedimentary rocks.

**GLOBAL BATTERY METALS LTD.  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE THREE AND NINE MONTHS ENDED JANUARY 31, 2021**

---

The net loss for the three months ended January 31, 2021 includes costs of \$121,370 related to property investigation costs as the company entered into a non-binding letter of intent with Sawyer Camp and started due diligence drilling and consulting.

The net loss for the three months ended July 31, 2019 includes \$193,245 of exploration costs mainly related to the Lucky Mica Claim Group. The net loss for the three months ended April 30, 2019 includes a write-off of mineral property acquisition costs of \$224,558 related to the Lucky Mica Claim Group and \$32,250 related to the Wells Vanadium project.

### **RESULTS OF OPERATIONS**

The loss for the three months ended January 31, 2021 was \$323,874 compared with \$131,782 for the three months ended January 31, 2020. The increase in loss for the period is primarily due to the following:

a) Property Investigation \$143,168 (2020 - \$nil)

During the three months ended January 31, 2021, the Company incurred due diligence expenditures on an early-stage evaluation of a Michigan based property.

b) Share-based compensation \$59,686 (2020 - \$nil)

During the period ended January 31, 2021, the Company granted 660,000 stock options to directors, officers, and consultants of the Company.

The loss for the nine months ended January 31, 2021 was \$670,157 compared with \$582,674 for the nine months ended January 31, 2020. The increase in loss for the period is primarily due to the following:

a) Business Investigation costs \$73,155 (2020 - \$9,763)

The Company incurred business investigation costs during the nine months ended January 31, 2021 as it looked at potential acquisitions.

b) Exploration costs \$60,455 (2020 - \$239,612)

During the prior fiscal year the Company engaged in a drilling program and assay result analysis on Lucky Mica and upon completion did not continue with further exploration of the Property.

c) Property Investigation \$166,573 (2020 - \$nil)

During the nine months ended January 31, 2021 the Company incurred due diligence expenditures on an early-stage evaluation of a Michigan based property.

### **LIQUIDITY AND CAPITAL RESOURCES**

As at January 31, 2021 the Company had a working capital of \$1,254,810 compared to \$710,842 at April 30, 2020. As at January 31, 2021 the Company had cash of \$1,233,046 compared with \$753,905 as at April 30, 2020. The net increase in cash is primarily due to the closing of a private placement resulting in proceeds of \$1,035,000.

Subsequent to January 31, 2021 the Company significantly augmented its cash position through closing a private placement for gross proceeds of \$170,000, the exercise of warrants for gross proceeds of \$1,435,006, the exercise of options for gross proceeds of \$186,400 and the exercise of compensation options for gross proceeds of \$31,360.

The Company is currently in the exploration stage and depends on the junior resource capital markets to raise funds to carry out its exploration programs. The Company's ability to continue as a going concern is dependent upon its ability to obtain the necessary equity financing to develop its mineral property interests, to meet its ongoing corporate overhead requirements and discharge its liabilities as they come due. Currently

---

the Company believes it has enough working capital to discharge its obligations as they come due for the next twelve months.

**Capital Expenditures**

The Company did not incur any mineral property acquisition costs during the three and nine months ended January 31, 2021. The Company did receive payment from the Option Agreement for the Lara property of US\$59,000 during the nine months ended January 31, 2021.

During the nine months ended January 31, 2020, the Company incurred cash mineral property acquisition costs of \$45,871 related to the North West Leinster Lithium Property.

**Financing Activities**

On November 10, 2020, the Company closed a non-brokered private placement of 10,350,000 units at \$0.10 per unit, for gross proceeds of \$1,035,000. Each unit consists of one common share and one common share purchase warrant exercisable into one common share at an exercise price of \$0.15 for a period of 2 years from the issue date. The company incurred cash share issuance costs of \$53,881.

On May 1, 2019, the Company closed a non-brokered private placement of 6,431,300 units at \$0.16 per unit, for gross proceeds of \$1,029,008. Each unit is comprised of one common share of the Company and one-half of one share purchase warrant, with each whole warrant entitling the holder to acquire one additional common share at an exercise price of \$0.24 for a period of two years. The Company incurred cash share issuance costs of \$29,533. The Company had received \$246,000 of the gross proceeds prior to April 30, 2019. During the nine months ended January 31, 2019 the Company received proceeds of \$3,072 pursuant to the exercise of 19,200 warrants.

Subsequent to January 31, 2021 the Company significantly augmented its cash position through closing a private placement for gross proceeds of \$170,000, the exercise of warrants for gross proceeds of \$1,435,006, the exercise of options for gross proceeds of \$186,400 and the exercise of compensation options for gross proceeds of \$31,360.

**CONTINGENCIES**

The Company has approved a compensation package to the Chief Executive Officer. On the completion of a corporate acquisition or merger, bonuses of up to 500,000 stock options, restricted share units equal to 1% of the value of the transaction and cash in the amount equal to 0.25% of the value of the transaction would become payable. As at January 31, 2021 no corporate acquisition or merger has been entered into and therefore no accrual for the compensation package has been recorded.

**FINANCIAL INSTRUMENTS**

The Company's financial instruments consist of cash and accounts payable and accrued liabilities. The Company classifies its cash and accounts payables and accrued liabilities as amortized cost. The fair value of these instruments approximate their carrying value due to their short term to maturity.

The Company's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk. There have been no changes in any risk management policies since April 30, 2020.

**RISKS AND UNCERTAINTIES**

Natural resources exploration, development, production and processing involve a number of business risks, some of which are beyond the Company's control. These can be categorized as operational, financial and regulatory risks.

Operational risks include finding and developing reserves economically, marketing production and services, product deliverability uncertainties, changing governmental law and regulation, First Nations consultation, hiring and retaining skilled employees and contractors and conducting operations in a cost effective and safe manner. The Company continuously monitors and responds to changes in these factors and adheres to all regulations governing its operations. Insurance may be maintained at levels consistent with prudent industry practices to minimize risks, but the Company is not fully insured against all risks, nor are all such risks insurable.

**GLOBAL BATTERY METALS LTD.  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE THREE AND NINE MONTHS ENDED JANUARY 31, 2021**

---

Financial risks include commodity prices and interest rates all of which are beyond the Company's control. Additional financial risks are the Company's ability to raise capital and to repay indebtedness it incurs. Regulatory risks include the possible delays in getting regulatory approval to the transactions that the Board of Directors believe to be in the best interest of the Company, and include increased fees for filings, the introduction of ever more complex reporting requirements the cost of which the Company must meet in order to maintain its exchange listing.

The Company has no significant source of operating cash flow and no revenues from operations. External financing, primarily through the issuance of common shares is the main source of funding for the Company. Although the Company has been successful in raising the necessary funds in the past, there can be no assurance that it will be able to do so in the future.

### **CORONA VIRUS ("COVID 19")**

In March 2020, the World Health Organization declared COVID-19 a global pandemic. The COVID-19 outbreak has resulted in social and economic disruption and had a resultant impact on the mining and exploration industries and capital markets. As at the date of this report, the Company has not been significantly impacted by the spread of COVID-19. However, the duration and impact of the COVID-19 pandemic, as well as the effectiveness of government and central bank responses, remains unclear at this time and could have a material impact on the Company's future financial position, results of operation and cash flows. In particular, there may be heightened risk of mineral property impairment and liquidity or going concern uncertainty.

### **DISCLOSURE CONTROLS AND PROCEDURES**

In connection with National Instrument 52-109 (Certification of Disclosure in Issuer's Annual and Interim Filings) ("NI 52-109"), the Chief Executive Officer and Chief Financial Officer of the Company have filed a Venture Issuer Basic Certificate with respect to the financial information contained in the condensed interim consolidated financial statements for the three and nine months ended January 31, 2021 and this accompanying MD&A (together the "Interim Filings").

In contrast to the full certificate under NI 52-109, the Venture Issuer Basic Certificate does not include representations relating to the establishment and maintenance of disclosure controls and procedures and internal control over financial reporting, as defined in NI 52-109. For further information the reader should refer to the Venture Issuer Basic Certificates filed by the Company with the Filings on SEDAR at [www.sedar.com](http://www.sedar.com).
