MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE NINE MONTHS ENDED JANUARY 31, 2026 AND 2025**

The information contained in this Management's Discussion and Analysis of Financial Condition and Results of Operations for the three and nine months ended January 31, 2026 ("MD&A") has been prepared as of April 1, 2026. It should be read in conjunction with the unaudited condensed interim consolidated financial statements of Global Battery Metals Ltd. ("GBML" or the "Company") for the three and nine months ended January 31, 2026 as well as the audited annual consolidated financial statements for the year ended April 30, 2025 and the accompanying MD&A for the year then ended.

The referenced unaudited condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"). All amounts are expressed in the Company's presentational currency of Canadian dollars unless otherwise indicated.

CORPORATE HIGHLIGHTS

Business description

The Company's principal business activities include the acquisition and exploration of mineral properties, with its head office located in Vancouver, British Columbia, Canada. The Company currently maintains economic interests in two battery metal projects: (1) a 100% ownership in the Lithium King Property in Utah, United States; and (2) a 55% controlling interest in Minas Dixon S.A ("Minas Dixon") which owns 100% of the Lara Copper Property in southern Peru. The Company is a reporting issuer in British Columbia, Alberta and Ontario and its common shares trade on the TSX Venture Exchange (TSXV: GBML); on the OTC Markets (OTCQB: REZZF); and the Frankfurt Stock Exchange (FSE: REZ).

Recent highlights

On March 2, 2026, the Company closed a non-brokered private placement financing issuing a total of 7,000,000 units at a price of \$0.09 per unit for gross proceeds of \$630,000. Each unit consists of one common share and one share purchase warrant. Each share purchase warrant entitles the holder to acquire one additional common share at a price of \$0.12 for a period of three years from issuance.

On November 10, 2025 the Company announced that Minsur S.A has relinquished its option to acquire the Company's 55% owned Lara Copper Property. The Company is working with its partner to determine next steps for the project.

Effective March 3, 2025, the Company consolidated its issued and outstanding common shares on the basis of 10 pre-consolidated shares for one post-consolidation share. All references to share and per share amounts in this MD&A have been retroactively restated to reflect the consolidation.

On February 28, 2025, all the conditions were met in the settlement agreement announced on November 25, 2024. The Company received 255,926 common shares of Critical Metals Corp (the consideration shares), representing the 284,362 consideration shares, net of a 10% share commission and outstanding payments were settled.

On November 25, 2024, the Company announced that further to its news release of April 22, 2024, the Company has reached an agreement with LRH Resources Limited ("LRHR") and Technology Minerals PLC ("TM1"), the parent company of LRHR, with respect to the Leinster Lithium Property in Ireland. The parties have negotiated a settlement agreement to resolve differences regarding the terms of the joint venture agreement that was made between the Company and LRHR. Pursuant to a settlement agreement LRHR, TM1 and the Company have agreed to terms for the termination of their mutual obligations under the LOI. The Company's interest shall be deemed transferred to LRHR in exchange for 284,362 common shares of Critical Metals Corp (the consideration shares). The agreement also contemplates that outstanding property expenditures will be settled directly with the creditors.

MINERAL PROPERTY INTERESTS

Lithium King Project

The Lithium King Project is a lithium brine project located on the west side of the Great Salt Lake Basin in western Utah, adjacent to the community of Wendover, Utah. Acquired through staking, the Property has the potential to host a lithium, and magnesium brine deposit in an existing mineral producing location in a mining-friendly State. Historic surface water sampling from shallow drill holes (0-25 feet) by the USGS between 1972 and 1993 identified anomalous lithium values up to 1,200ppm. On December 12, 2023, neighboring Intrepid Potash announced measuring lithium concentrations at over 1,500 parts per million li in its final byproduct brine at its Wendover mine.

Lara Copper Property

The Lara Property is located at moderate elevation, 40 km from the Pan American Highway and 400 km south of Lima on the southern coast of Peru. It consists of three mineral concessions, covering an area of 1,800 hectares (18 km²). The Lara Property is made up of a porphyry center known as Lara. It has been delineated with a corridor of hydrothermal alteration extending over several kilometers. Preliminary metallurgical test work, completed in the late 1990's, indicates that the enriched zone of the Lara Property is amenable to low-cost solvent extraction and electro-winning processing.

On July 28, 2020, the Company entered into an Option and Royalty Agreement ("the Option Agreement"), together with Lara Exploration through Minas Dixon, for the sale of the Lara Property to Minsur S.A. The Company will retain a 0.75% Net Smelter Return ("NSR") royalty. Under the terms of the Option Agreement the Company and Lara Exploration have granted Minsur S.A an exclusive option to acquire a 100% interest in the Lara Property by making staged cash payments of US\$5,759,000 based on the satisfaction of certain milestones. A total of US\$259,000 has been paid out so far in connection with the Option Agreement. On November 10, 2025 the Company announced that Minsur S.A has terminated the Option Agreement. The Company is working with its partner to determine next steps for the project.

Leinster Lithium Property

During the year ended April 30, 2025 the Company has reached an agreement with LRH and TM1, the parent company of LRHR to resolve differences regarding the terms of the joint venture agreement that was made between the Company and LRHR. Pursuant to a settlement agreement LRHR, TM1 and the Company have agreed to terms for the termination of their mutual obligations under the LOI. The Company received 255,926 common shares of Critical Metals Corp (the consideration shares), representing the 284,362 consideration shares, net of a 10% share commission and outstanding payments were settled.

Tancred

The Company entered into a property option agreement with Tancred Resources Limited ("Tancred") to earn up to a 100% interest in six claims in close proximity to the NWL Lithium Property. The Company recorded a write-down of exploration and evaluation asset of \$71,958 during the year ended April 30, 2025 as the Company did not continue the option agreement.

Central Michigan Project

On April 1, 2022, the Company was granted three State surface and mineral leases covering 1,609 acres in the State of Michigan. The Company recorded a write-down of exploration and evaluation asset of \$8,176 during the year ended April 30, 2025 as the Company formally released the Central Leases.

Income (Loss) per share attributable to shareholders ⁽¹⁾	0.01	0.04	(0.02)	(0.17)

⁽¹⁾ The basic and diluted loss per share calculation results in the same amount due to the anti-dilutive effect of outstanding stock options and warrants.

The net income for the three months ended October 31, 2024 includes \$475,000 received for reimbursement of business investigation costs incurred in prior periods. The net loss for the three months ended April 30, 2024 includes higher business investigation costs as the company evaluated potential business acquisitions.

RESULTS OF OPERATIONS

The loss for the three months ended January 31, 2026 was \$72,009 compared with a loss of \$200,791 for the three months ended January 31, 2025. The decrease in loss was primarily due to the following:

a) Office administration \$20,425 (2025 - \$67,638)

The decrease in office administration is due to the timing of their AGM, incurring lower insurance costs and smaller fluctuation in foreign exchange.

c) Professional fees \$12,822 (2025 - \$67,931)

In the prior year, the Company incurred costs related to the Tancred option agreement and the settlement agreement on the Leinster Lithium property.

c) Other income \$nil (2025 - \$475,000)

Other income in the prior period includes \$475,000 received for reimbursement of business investigation costs incurred in prior periods.

The loss for the nine months ended January 31, 2026 was \$283,375 compared with a loss of \$55,930 for the nine months ended January 31, 2025. The increase in loss was primarily due to the following:

a) Management salaries and benefits \$78,928 (2025 - \$117,524)

The decrease in management salaries and benefits is due to the fact that the Company's CEO took a decrease in salary to preserve cash.

b) Professional fees \$43,483 (2025 - \$143,578)

In the prior year, the Company incurred costs related to the Tancred option agreement and the settlement agreement on the Leinster Lithium property.

c) Other income \$nil (2025 - \$475,032)

Other income in the prior period includes \$475,000 received for reimbursement of business investigation costs incurred in prior periods.

LIQUIDITY AND CAPITAL RESOURCES

As at January 31, 2026, the Company had a working capital deficiency of \$567,827 compared to working capital deficiency of \$301,890 at April 30, 2025. As at January 31, 2026, the Company had cash of \$442,210 compared with \$752,244 as at April 30, 2025.

The Company is currently in the exploration stage and depends on the junior resource capital markets to raise funds to carry out its exploration programs. The Company’s ability to continue as a going concern is dependent upon its ability to obtain the necessary equity financing to develop its mineral property interests, to meet its ongoing corporate overhead requirements and discharge its liabilities as they come due.

Financing Activities

During the nine months ended January 31, 2026 and 2025, the Company did not have any financing activities. Subsequent to January 31, 2026 Company closed a non-brokered private placement and issued a total of 7,000,000 units at a price of \$0.09 per unit for gross proceeds of \$630,000. Each unit consists of one common share and one share purchase warrant. Each share purchase warrant entitles the holder to acquire one additional common share at a price of \$0.12 for a period of three years from issuance.

CONTINGENCIES

The Company has approved a compensation package to the Chief Executive Officer (“CEO”). On the completion of a corporate acquisition (“transaction”) with a fair market value of \$50,000,000 or more the CEO is entitled to a cash bonus equal to 0.4% of the fair market value of the transaction and a grant of options that is equal to 2% of the issued and outstanding common shares at the new proforma company at the time the agreement to complete the transaction is entered into. The employment agreement with the CEO has a twelve-month severance payment clause with a total maximum commitment of \$200,000.

FINANCIAL INSTRUMENTS

The Company’s financial instruments consist of cash and accounts payable and accrued liabilities. The Company classifies its cash and accounts payable and accrued liabilities as amortized cost. The fair value of these instruments approximates their carrying amounts due to their short-term to maturity.

There have been no changes to the Company’s financial instruments and risk exposures. The Company’s risks exposures and the impact on the Company’s financial instruments are discussed in the consolidated financial statements for the year ended April 30, 2025.

RISKS AND UNCERTAINTIES

Natural resources exploration, development, production and processing involve a number of business risks, some of which are beyond the Company’s control. These can be categorized as operational, financial and regulatory risks.

Operational risks include finding and developing reserves economically, marketing production and services, product deliverability uncertainties, changing governmental law and regulation, hiring and retaining skilled employees and contractors and conducting operations in a cost effective and safe manner. The Company continuously monitors and responds to changes in these factors and adheres to all regulations governing its operations. Insurance may be maintained at levels consistent with prudent industry practices to minimize risks, but the Company is not fully insured against all risks, nor are all such risks insurable.

Financial risks include commodity prices and interest rates all of which are beyond the Company’s control. Additional financial risks are the Company’s ability to raise capital and to repay indebtedness it incurs. Regulatory risks include the possible delays in getting regulatory approval to the transactions that the Board of Directors believe to be in the best interest of the Company, and include increased fees for filings, the introduction of ever more complex reporting requirements the cost of which the Company must meet in order to maintain its exchange listing.

The Company has no significant source of operating cash flow and no revenues from operations. External financing, primarily through the issuance of common shares, is the main source of funding for the Company. Although the Company has been successful in raising the necessary funds in the past, there can be no assurance that it will be able to do so in the future.

DISCLOSURE CONTROLS AND PROCEDURES

In connection with National Instrument 52-109 (Certification of Disclosure in Issuer’s Annual and Interim Filings) (“NI 52-109”), the Chief Executive Officer and Chief Financial Officer of the Company have filed a Venture Issuer Basic Certificate with respect to the financial information contained in the condensed interim consolidated financial statements for the three and nine months ended January 31, 2026 and this accompanying MD&A (together the “Interim Filings”).

In contrast to the full certificate under NI 52-109, the Venture Issuer Basic Certificate does not include representations relating to the establishment and maintenance of disclosure controls and procedures and internal control over financial reporting, as defined in NI 52-109. For further information, the reader should refer to the Venture Issuer Basic Certificates filed by the Company with the Filings on SEDAR+ .
